

## CTS and MCW Good Clinical Practice research training requirement

### Frequently asked questions

I have already taken CIT training, do I need to take GCP as well?

If the type of studies you are involved with fit the criteria described above, you will need to take GCP too.

(formerly Learner Groups 1 and 2)

Learner Group 11

Research (formerly Learner Groups 4 and 5)

Senior Community Based Participatory Research (CBPR),

Learner Group 6

I have completed GCP training for an industry trial, do I need to take this again?

If the training you have taken meets criteria as explained above, you will not be required to re-take GCP. You must, however, re-take it every 3 years.

I have completed GCP training at another institution, do I need to take this again?

If the training at the other institution meets criteria as described above, you need not take it. You must, however, re-take it every 3 years. Additionally, you may contact Amit Gode at [agode@mcw.edu](mailto:agode@mcw.edu) for further clarification.

I am not involved in FDA regulated clinical research, do I still need GCP training?

No, if you are not involved in FDA regulated research you need not take this training.

Where do I go to take GCP training?

GCP training is available via the CIT portal. Once you log in, just select the GCP course which will be added to your portfolio to complete. You may complete it at your own pace.

How do I get access to this training?

MCW faculty are given adjunct faculty status through the CTS mechanism. Once this is confirmed, you will have access to CIT just like other

faculty at MCW.

I still have questions, who do I contact?

In case of questions, please contact Amit Gode at [agode@mcw.edu](mailto:agode@mcw.edu) or at 4148056999.
